St. Francis REFLECTIONSSM Lifestage Care

Reflecting life, love and compassion

Uplifting Lives, Uplifting Each Other, Uplifting Our Community.

Our mission began with a dream—a dream of neighbors helping neighbors in the Brevard community.

In 1977, Emile Sasko, a Titusville nurse and mother, realized the need for greater comfort, understanding and compassion for people nearing the end of their lives. From her genuine concern for others, the organization that would become St. Francis Reflections Lifestage care was born. After more than four decades, we remain an independent, not-for-profit, community-focused provider.

Changing to meet the needs of an ever-changing community

Today, St. Francis Reflections Lifestage Care has evolved into a multi-faceted organization providing a growing scope of services to individuals and families throughout Brevard County. Our scope includes palliative care, hospice, pediatric palliative care and the Space Coast's most extensive array of grief support programs.

We continuously enhance and upgrade our protocols, programs and platforms to ensure the highest possible level of care for our patients and their families. Complimented by a robust community engagement program and enthusiastic volunteer services team, we greet each day knowing that we are making a very real difference in people's lives.

We always seek to provide care in a manner that best suits each individual patient. In addition to caring for patients at the Edward M. Poe Center for Patients and Families, we offer an expansive array of home-based services for patients and families who prefer the comfort of their own home or the familiar surroundings of their long-term care facility.

Caring for the community through three primary service lines.

Hospice

Through hospice care guided by love and compassion, we offer the highest level of comfort and peace of mind when you need it most. Our hospice teams work with you and your loved ones to develop a plan of care that provides physical, emotional and spiritual support tailored to your needs, values and preferences.

Palliative Care

Palliative care helps individuals with serious illnesses achieve a higher quality of life. Our Palliative Care Specialists help you cope with challenging symptoms and navigate your options for care, while keeping your personal goals and priorities at the forefront.

Grief Support for Adults and Children

Losing a loved one is one of life's most painful experiences. If you've lost someone you care about, you may feel alone. But you don't have to face it alone. We can help you or your children through this difficult time with uplifting support from our professional bereavement counselors.

Reflecting life, love and compassion throughout the Brevard community.
